NO PARALLEL LINE PURCHASED.

Parts of Memphis System Eliminated From Deal-Auditors' Conference-Frisco Changes -New Lines-Notes.

Dispatches from Jefferson City are to the effect that the State Board of Railroad Commissioners took no final action yesterday in the proposed Frisco-Memphis consolidation case.

Presidents B. F. Yoakum of the Frisco and B. L. Winchell of the Memphis had been cited to appear, but they were represented by General Solicitor Lyman F. Parker of the Frisco and General Attorney L. P. Dana of the Memphis, who submitted sworn statements of the officials of the two

They declared that the Frico has not purchased the line of the Memphis system from Kansas City to Springfield, known as the Kansas City, Clinton and Springfield, nor has it secured the line of the Memphis from Fort Scott Junction to Springfield.

The Frisco gets the line of the Memphis from Springfield to Memphis and from Olathe, Kas, to Weir City Junction, and thence to Cherryvale, Kas, and to Webb City, Mo. Frisco officials may they have no inten-tion of operating the lines which parallel parts of their system.

have met with little encouragement in their efforts to stop the cutting of rates on westbound freight. The chief mischief is done between Buffalo and Chicago, and this is due to lack of harmony between the railroads in the Central Traffic Association. Members of that association admit that there will be more rate cutting before an amicable basis of settlement can be reached. The trouble is due mainly to the discontent of the weaker lines with their alotted proportion of the traffic.

REPUBLIC SPECIAL.

Washington, July 2.—Exposure of an attempt on the part of the Western Union Telegraph Company to extend its monopoly of telegraphic business to Cuba has been made in an important brief which has been filed with Secretary Root. This brief is joined in by the Commercial Cable Company, the Postal Telegraph Cable Company and the United States and Hayti Telegraph and Cable Company.

It is in answer to a communication filed with the Secretary of War by the International Ocean Telegraph Company, which is owned by the Western Union, asking the Secretary to instruct the United States of ficials in charge of the Cuban telegraph lines in Santiago, Cuba, to refuse to accept for transmission over such Cuban telegraph lines, messages from the United States going to Cuba by way of the cable lines of the United States and Hayti Telegraph and Cable Company.

The brief declares that the grant owned by the W. U. Telegraph Company was obtained by misrepresentations and that the rules of public policy as laid down by President Grant apply to the Cuban cable. It is insisted that there should be no monopoly of the sea and the monopoly of cable business is to that extent a monopoly of the sea. It is urgent that such an important matter should not be passed upon and determined outside of the courts.
